

SLY Yachts 54

POA

Description

Outstanding design in luxury fast cruising.

Contemporary and classic elements are intelligently blended into the clean, streamlined and extremely elegant profile of the Sly 54.

Understated in excellence, the Sly 54 is the new benchmark in fast cruising.

The generous sail plan, a light displacement with efficient appendages all offer high performance and great efficiency in the varying New Zealand conditions at any pace.

Style and Versatility

The Sly 54 fully compliments the nautical traditions demanded in a sailboat in terms of design and performance.

A large cockpit can host your family and friends due to its extensive free surface area. The astern double steering and long bench seats make heaps of space for cruising or racing with a full crew.

Even the slightest breeze moves the Sly 54 while allowing an easy and safe handling by either sails or engine.

The hull profile is streamlined and elegant while balanced by a low, narrow coach roof with long side windows.
